### Silicon (Si) Wafer 矽晶片

|               |       |                  |                     |
|---------------|-------|------------------|---------------------|
| <b>Grade:</b> | Prime | <b>#prd code</b> | 4N0 1-5 525-20-5-S0 |
|---------------|-------|------------------|---------------------|

|                  |              |              |              |
|------------------|--------------|--------------|--------------|
| <b>Diameter:</b> | 4" (100.0mm) | <b>Type:</b> | N/Phosphorus |
|------------------|--------------|--------------|--------------|

|                     |       |               |                      |
|---------------------|-------|---------------|----------------------|
| <b>Orientation:</b> | <100> | <b>Finish</b> | Single Side Polished |
|---------------------|-------|---------------|----------------------|

|                     |                                                                          |
|---------------------|--------------------------------------------------------------------------|
| <b>Description:</b> | 100mm, N type, Phos, <100> ON, 1-5 ohm-cm, 525um +/- 20, TTV <5um, Prime |
|---------------------|--------------------------------------------------------------------------|

|                             |                                             |
|-----------------------------|---------------------------------------------|
| <b>Material Properties:</b> | More detail as Specification or Contact us. |
|-----------------------------|---------------------------------------------|

|                         |                                             |
|-------------------------|---------------------------------------------|
| <b>Surface Quality:</b> | More detail as Specification or Contact us. |
|-------------------------|---------------------------------------------|
