### Silicon (Si) Wafer 矽晶片

|               |       |                  |                         |
|---------------|-------|------------------|-------------------------|
| <b>Grade:</b> | Prime | <b>#prd code</b> | 2P0 5-10 525-20-5-1F-S0 |
|---------------|-------|------------------|-------------------------|

|                  |             |              |         |
|------------------|-------------|--------------|---------|
| <b>Diameter:</b> | 2" (50.8mm) | <b>Type:</b> | P/Boron |
|------------------|-------------|--------------|---------|

|                     |       |               |                      |
|---------------------|-------|---------------|----------------------|
| <b>Orientation:</b> | <100> | <b>Finish</b> | Single Side Polished |
|---------------------|-------|---------------|----------------------|

|                     |                                                                                        |
|---------------------|----------------------------------------------------------------------------------------|
| <b>Description:</b> | 50.8mm, P type, Boron, <100> ON, 5-10 ohm cm, 525um+/-20, TTV <5um, Single Flat, Prime |
|---------------------|----------------------------------------------------------------------------------------|

|                             |                                             |
|-----------------------------|---------------------------------------------|
| <b>Material Properties:</b> | More detail as Specification or Contact us. |
|-----------------------------|---------------------------------------------|

|                         |                                             |
|-------------------------|---------------------------------------------|
| <b>Surface Quality:</b> | More detail as Specification or Contact us. |
|-------------------------|---------------------------------------------|
